The town at the bay's head, Thwil, shared something of the uncanniness of the Knoll and the Grove, for though the raiders had run through it seeking slaves and plunder and setting fires, the fires had gone out and the narrow streets had sent the marauders astray. Most of the islanders who survived were wise women and their children, who had hidden themselves in the town or in the Immanent Grove. The men now on Roke were those spared children, grown, and a few men now grown old. There was no government but that of the women of the Hand, for it was their spells that had protected Roke so long and protected it far more closely now. the stone circle where the singer had appeared; in the next avenue I came upon a robot mowing. stole a mouthful of milk sometimes; and now she willingly took the traveler home. "Who doesn't do hard work?" Emer had asked, showing her round, strong arms, her hard, red hands. The cattleman Alder expected him to stay out in these meadows until he had touched every living beast of the great herds there. Alder had sent two cowboys along. They made a camp of sorts, with a groundcloth and a half tent. There was nothing to burn out on the marsh but small brushwood and dead reeds, and the fire was hardly enough to boil water and never enough to warm a man. The cowboys rode out and tried to round up the animals so that he could come among them in a herd, instead of going to them one by one as they scattered out foraging in the pastures of dry, frosty grass. They could not keep the cattle bunched for long, and got angry with them and with him for not moving faster. It was strange to him that they had no patience with the animals, which they treated as things, handling them as a log rafter handles logs in a river, by mere force..Most people of the Archipelago have brown or red-brown skin, black straight hair, and dark eyes; the predominant body type is short, slender, small-boned, but fairly muscular and well-fleshed. "Talent's no good without memory!" He was not harsh, but he was unyielding. Diamond had no idea what opinion Hemlock had of him, and guessed it to be pretty low. The wizard sometimes had him come with him to his work, mostly laying spells of safety on ships and houses, purifying wells, and sitting on the councils of the city, seldom speaking but always listening. Another wizard, not Roke-trained but with the healer's gift, looked after the sick and dying of South Port. Hemlock was glad to let him do so. His own pleasure was in studying and, as far as Diamond could see, doing no magic at all. "Keep the Equilibrium, it's all in that," Hemlock said, and, "Knowledge, order, and control." Those words he said so often that they made a tune in Diamond's head and sang themselves over and over: knowledge, or-der, and contro-----hers and smiled at him, a smile so tender and radiant that he said spontaneously, "And may what.man, distrustful of visions until they could be made acts; and she, though a dutiful, loving wife.sank. Hemlock was a stickler for early abed and early afoot. But now and then Diamond had an hour or two free. He always went down to the docks and sat on a pier or a waterstair and thought about Darkrose. As soon as he was out of the house and away from Master Hemlock, he began to think about Darkrose, and went on thinking about her and very little else. It surprised him a little. He thought he ought to be homesick, to think about his mother. He did think about his mother quite often, and often was homesick, lying on his cot in his bare and narrow little room after a scanty supper of cold pea-porridge -- for this wizard, at least, did not live in such luxury as Golden had imagined. Diamond never thought about Darkrose, nights. He thought of his mother, or of sunny rooms and hot food, or a tune would come into his head and he would practice it mentally on the harp in his mind, and so drift off to sleep. Darkrose would come to his mind only when he was down at the docks, staring out at the water of the harbor, the piers, the fishing boats, only when he was outdoors and away from Hemlock and his house..There he was well received by King Thoreg, who, after the shattering loss of his fleet, was ready to call a truce and withdraw from the occupied Hardic islands if Maharion would seek no reprisal..people's hair but curly, frizzy. The same thing again: they belonged to the Hand, and the Hand was a league of powerful sorcerers on Morred's Isle, or on Roke; and the man Otter or Tern came from there, though originally from Havnor; and they held him in great respect, although he was only a finder. The sister had vanished, perhaps gone with Otter to Endlane, where the mother lived. Early rummaged in their cloudy, witless minds, had the youngest of them tortured, and then burned them where Losen could sit at his window and watch.
