Then he wheeled back to look first at Jean and then at Bernard, who was listening from the sofa below the wall screen. "Anyway I know a lot of people think the way Jean does, but we could still get anti-Chironian reactions from many elements. That's what worries me. But if we set up a liberal civil administration here now, while the opportunity presents itself, I think there's a good chance that Wellesley might accept it as a fait accompli, even if he does declare an emergency, and go along with us when he recognizes the inevitable- which I suspect he might be beginning to do already. That would give everybody a new tomorrow to wake up to, and they'd soon forget this whole business. But there isn't much time. That's why I skipped the meeting. Now you two can help, pretty much in the ways we've discussed. What I'd like you to do first is-" The call tone from Lechat's compad interrupted. It wasn't so much the spectacle of Mrs. Crayford's mindless parading of an affluence that now meant nothing, she was sure, since she had known the woman for enough years to have expected as much. Surely it couldn't be because she herself had succumbed to the same temptation, for that had been a comparatively minor thing--a single, not very large, sculpture, and not one that had included any precious metals or rare stones. She turned her head to gaze at the piece again--she had placed it in the recess by the

corner window--the heads of three children, two boys and a girl, of perhaps ten or twelve, staring upward as if at something terrifying but distant a threat perceived but not yet threatening. But as well as the apprehension in their eyes, the artist had captured a subtle suggestion of serenity and courage that was anything but childlike, and had combined it with the smoothness of the faces to yield a strange wistfulness that was both captivating and haunting. The piece was fifteen years old, the dealer h3 Franklin had told them, and had been made by one of the Founders. Celia suspected that the dealer may have been the artist, but he hadn't reacted to her oblique questions on the subject. Were the expressions on those faces affecting her for some reason? Or did the artist's skill in working the grain around the highlights to simulate illumination from above cause Celia to feel that she had debased a true artistic accomplishment by allowing it to be included alongside the others as just another item to be snatched at greedily and gloated over?.baked earth still radiated stored heat. "Honeylamb, I'll admit this here's not a five-star.Gaulitz nodded hastily and touched a control to bring a view of the Kuan-yin onto the room's main display screen. It showed Chironian shuttles at all the docking ports, and more standing a few miles off and apparently waiting to move in. "this is a further corroboration from views obtained this morning," he said. "All indications are that the Chironians have evacuated the vessel, which supports the contention of its being cleared for action,".Pernak twisted his face through a few contortions, then sighed again. "I know. That crossed my mind too, but what is there to provoke any real trouble? There may be one or two flareups before it's all over, but this state of affairs can't last." He shook his head. "We're convinced 'this is the only way to go. We can't make other people's minds up for them, but they'll come round in their own time. Anything else would cause worse problems."."Not worth screwing around with," Walters declared. "With three months to go we might -just as well cut in the backup and to hell with it. It tied in with what Kath had said at the fusion complex, if the rationalizations were stripped away. So what was Merrick doing-increasing the intended overseeing force because the Directorate bad decided to go ahead with the plan, using Padawski as an excuse? "I'm not sure that I do," he replied. "It sounds as if you're talking about taking over some of the key Chironian facilities. Wouldn't that only make any trouble worse?'.She took a sip. It was smooth, warm, and mellowing. "It's excellent," she replied..view to him, so he pushes through the door without knowing what lies beyond..you're sure it's okay, then thanks ... thanks a lot." "No problem," Chang told him.. "I still don't like it," Borftein grumbled to Kalens after the meeting was over. "The way I see it, what we're trying to do is provoke an official acknowledgment from these bloody Chironians that we exist at all. If I had my way, I'd soon show them whether we exist or not."..so full of life. And you still are everything you were then. None of it's lost forever. All that promise, all."So where do we go from here?" Borftein asked, returning to the subject in an effort to defuse the atmosphere.. "We couldn't let him do that, could we?" Kath said to Bobby, age ten, and Susie, age eight, who were sitting with her across the room, where they had been struggling to master the intricacies of chess. "Lurch is half the fun of coming here."..life is all one long playtime. But it's not really their fault because they're not really people like us." The conviction was widespread even though the Mayflower II's presiding bishop was carrying a special ordinance from Earth decreeing that Chironians had souls. Jean realized that she had left* herself open to misinterpretation and added hastily, "Well, they are people, of course. But they're not exactly like you because they were born without any mothers or fathers. You mustn't hate them or anything. Just remember that you're a little better than they are because you've been luckier, and you know about things they've never had a chance to learn. Even if we have to be a little bit firm with them, it will be for their own good in the end."."Why?" a girl in a pink jacket asked..
